**Why Attend Safe Table Events?**

Ask the Participants!

“Happy to hear so many organizations sharing. Patients will benefit!”

“The educational presentation was invaluable. I really enjoyed the sharing of ideas and policies, too”

“Excellent forum for collaboration and open discussion“

Join Us At Our Next Safe Table: SEPSIS

**What is a MAPS PSO Safe Table Event?**

It’s a Midwest Alliance for Patient Safety (MAPS) Patient Safety Organization (PSO) meeting for healthcare providers to share patient safety experiences, discuss best practices, and learn from experts and each other in a legally protected and confidential environment. MAPS PSO SafeTable events feature a subject matter expert presentation followed by facilitated group discussion. Attendees are asked to share adverse events, challenges, and lessons learned. All information is de-identified to ensure an optimal learning environment.

Take this opportunity to attend our upcoming MAPS PSO Safe Table event on Readmissions, at no cost, to MHA/IHA HEN 2.0 and MAPS PSO members.

To learn more about MAPS PSO Safe Tables, please contact:

Mary Stankos, RN, MJ, CPHQ, CPPS

10:15 AM  Break

10:30 AM  Safe Table Talk Interactive discussion, sharing experiences & lessons learned

12:00 PM  Networking Lunch (purchase food onsite or go offsite to eat)

1:00 PM  The Role and Value of Community Health Workers. Bridget K. Larson, MS, Independent Healthcare Consultant

2:00 PM  End of Event

Learn why talk about readmissions?
In 2015, Illinois ranked 8th in the top ten with the highest average readmission rate. Michigan has cut readmission rates but continues to pay stiff penalties. Nearly one in five Medicare patients that are discharged from the hospital returns there within 30 days, and between 50 percent and 75 percent of those readmissions could have been prevented by improving barriers patients confront during and after admission/discharge. FACT: Hospitals are losing money over high readmissions rates. Join us to discuss new models and process improvements.

Wednesday, June 15 -9:00 am - 2:00 pm
Location 1: Marriott Chicago Naperville
1801 North Naper Boulevard, Naperville, IL
(Limited Overnight-Discounted hotel rooms are available. See Registration site for details.)

Location 2: IHA Building
700 South Second St, Springfield, IL

Why Talk About Readmissions?
In 2015, Illinois ranked 8th in the top ten with the highest average readmission rate. Michigan has cut readmission rates but continues to pay stiff penalties. Nearly one in five Medicare patients that are discharged from the hospital returns there within 30 days, and between 50 percent and 75 percent of those readmissions could have been prevented by improving barriers patients confront during and after admission/discharge. FACT: Hospitals are losing money over high readmissions rates. Join us to discuss new models and process improvements.

Learning Objectives:
✓ Describe the Bridge model of care and how it impacts readmission rates
✓ Identify key challenges in implementing a Comprehensive Care Program
✓ Discuss strategies used to implement successful Community Health Worker models for hospitals
✓ List emerging best practices in reducing readmissions involving the community across the continuum

The Illinois Health and Hospital Association (IHA) is the CE sponsor of this program and the Midwest Alliance for Patient Safety PSO is the host and content developer.

CE Statement: As the sponsor of this didactic lecture with interactive exercises, the Illinois Health and Hospital Association is authorized by the State of Illinois Department of Financial and Professional Regulation (license number 236.000109) to award up to 3.75 hours of nurse continuing education credit for this program.
