Why Attend a Safety Session?

- Tools/resources from National Speakers & Top Performing IL Healthcare Facilities
- Shared Lessons
- Continuing Education

Ask the Participants!

“Loved listening to Dr. Sanjay Saint last year. He really gets to the root of CAUTI issues”

“I was able to learn great takeaways from our group discussion.”

This event is complimentary to Great Lakes Partners for Patients HIIN members of IHA, MHA, & WHA.

The Illinois Health and Hospital Association (IHA) is the CE sponsor of this program and the Midwest Alliance for Patient Safety PSO is the host and content developer.

What is a Safety Session Event?

It’s a unique event focused on learning. Midwest Alliance for Patient Safety (MAPS) convenes healthcare providers to share patient safety experiences, discuss best practices, and learn from leading speakers and each other in a safe environment.

Every Safety Session presents a subject-matter expert and an Illinois healthcare organization sharing real-life experiences and processes focused on harm reduction. Wrapping up the event, the MAPS team facilitates break out group discussions to reinforce the day’s curriculum. Attendees will share adverse events, challenges, and lessons learned. All information is de-identified to ensure an optimal learning environment.

MAPS PSO Safety Session Event
Preventing CAUTI
Friday, January 20, 2017 - 8:00 am - 12:30 pm

What are we doing to improve patient safety and preventing CAUTI?

Join our clinical experts and attendees for a discussion on Catheter-associated urinary tract infection (CAUTI), new approaches, process improvements, decreasing risk and improving outcomes. Despite national efforts to eliminate CAUTI, it is on the rise.

CAUTI is a common device-associated infection in the United States. The majority of CAUTIs are considered to be avoidable. Recommended infection-prevention practices and technical guidelines for CAUTI include: appropriate use, aseptic insertion, proper maintenance, and timely removal of indwelling urinary catheters. However, in addition to these guidelines, organizations must focus on changing both staff behavior and improving their culture of safety.

Learning Objectives:
1. Understand the burden of illness from urinary catheters with a special focus on problems associated with CAUTI
2. Learn how to prevent CAUTI and what to do when initial methods are unsuccessful
3. Employ novel approaches to changing healthcare worker behavior such as framing and mindfulness

AGENDA

8:00 AM  MAPS PSO Value Proposition
Carrie Pinasco, Director, Midwest Alliance for Patient Safety PSO

8:15 AM  Preventing CAUTI: Taking Your Organization to the Next Level
Sanjay Saint, MD, MPH, Chief of Medicine, VA Ann Arbor Healthcare

9:30 AM  Break

9:45 AM  CAUTI Improvement Story: Illinois Organization Presentation
Springfield
Kristin E. Goldesberry, MPH, MLS (ASCP), Infection Prevention Facilitator, HSHS St. John’s Hospital - Springfield

Mount Vernon
Karen Kaus, MSN, RN, Nurse Manager Critical Care Unit, Nurse Manager Supplemental Nurse Resources, HSHS St. Elizabeth’s Hospital Belleville
Lori M. Winters, MSN, RN, Infection Preventivist, HSHS St. Anthony’s Memorial Hospital - Effingham
Carol Vance, BSN, RN, CIC, Infection Prevention Manager, Occupational Health Manager, HSHS St. Elizabeth’s Hospital Belleville

10:30 AM  Break

10:45 AM  CAUTI Safe Session Discussion
Interactive discussion, sharing experiences & lessons learned

12:30 PM  End of Event

CE Statement: As the sponsor of the didactic lecture with interactive exercises The Illinois Health and Hospital Association (IHA) is authorized by the State of Illinois Department of Financial and Professional Regulation (license number 236.000109) to award up to 3.5 hours of nurse continuing education credit for this program.

Certified Professional in Healthcare Quality (CPHQ)
This program has been approved by the National Association for Healthcare Quality for 3.5 CPHQ continuing education hours.

Certified Professional in Patient Safety (CPPS)
This activity meets the criteria of the Certification Board for Professionals in patient Safety for up to 3.5 CPPS CE hours.
