

The experience speaks for itself!

It's a Midwest Alliance for Patient Safety (MAPS) **Patient Safety Organization (PSO) members-only meeting for healthcare providers to share and collaborate.** Participants discuss patient safety experiences, best practices, **and learn** from experts and each other **in a confidential and safe environment.** More importantly, the education is geared to all clinicians and delivers key take-aways that correspond back to submitted PSO adverse events. MAPS PSO Safe Tables feature a subject matter expert presentation, data analysis review and facilitated group discussion. Attendees are asked to share adverse events, challenges, and lessons learned. All information is de-identified to ensure an optimal learning environment.

Take this **opportunity** to maximize your program membership by attending our MAPS PSO Safe Tables.

Why Attend MAPS PSO Safe Tables?

Ask our Members!

“A fabulous opportunity for our team to hear a content expert and then work collectively with other organizations on Next Steps!”

“The data presentation was invaluable, because it provided us with support on our patient safety efforts.”

“Great opportunity to meet and talk with my peers on our shared challenges and opportunities“

This meeting is complimentary and open to all MAPS PSO members only
